### EMPLOYMENT

---

**Software Engineer, Intern** **Amazon** **June 2016 - August 2016**

Team: Amazon Global Selling

- Built a complete Java Application and services which recognizes a seller's country of origin by collecting data from various authoritative sources.
- Created an extensible application by implementing *Factory Design Pattern*, which will allow to add more data sources in the future easily.
- Integrated with Amazon SQS (Simple Queue Service) to make it scalable to heavy requests.
- Other technologies used: DynamoDB, Amazon's Coral Service framework.

---

**Teaching Assistant** **Coding Ninjas** **December 2016 - Jan 2017**

- Provided training to students to build a strong foundation in their programming, problem solving and algorithmic skills.
- Course topics: C++, OOPs concepts, Data Structures, Algorithms, Problem solving.

### TECHNICAL EXPERIENCE

---

#### Projects

- **JEEQuery** : A stackoverflow like Django web app for Q&A discussions related to IIT JEE preparation. Over 300+ registered users. (Link: <http://jeequery.com> )
- **DTU Mart** : A Django web app that makes it easy for college students to exchange study materials. Over 190+ registered users, with active participation. Received 200+ ads in just 2 months. (Link:<http://dtumart.com> )
- **Classifier** : A file classifying python module. Received over 600+ stars on GitHub. This project trended on Top Trending Python Repositories on GitHub at #3 spot. (Link: <http://github.com/bhrigu123/classifier> )

### EDUCATION

---

**New Delhi** **Delhi Technological University** **2013 - May 2017 (expected)**

- B. Tech. in Information Technology.
- Agg. Percentage (till 6th semester): 76.91%
- Undergraduate Coursework: Algorithms; Data Structures; Operating Systems; Databases; Programming Languages; Discrete Mathematics; .
